

Forklift Spreader Bar

Spreader Bar for Forklifts - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader maker in the world. They have been a devoted producer of spreaders utilized for various applications like for example the trailers, handling of containers and swap bodies.

Engineering is done in-house by means of utilizing all the newest FEM tools and CAD systems. The ELME company presently has over one hundred twenty five personnel. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes across the world.

The ELME product range offers spreaders utilized for various container and trailer handling operations. Several of their inventory consist of: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks plus a wide range of additional parts.

Manufacturing and production of ELME products are established in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by utilizing quality parts in order to guarantee dependability and excellent standards. Major characteristics of ELME include design simplicity, market feedback and ground-breaking modular spreader concept.
