

TCM Forklift Part

TCM Forklift Parts - In the international industry of material handling, forklifts play an important role for transporting industrial goods. First innovated as industrial vehicles in the 1930s in the U.S., lift trucks gained recognition after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread internationally.

In 1949, established by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the company is simply called TCM Corporation. Throughout the years, TCM lift trucks have become a worldwide leader in lift truck manufacturing and have built a solid reputation in the industry. TCM started building forklift manufacturing sites outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes several models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products used and recognized all around the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading company.
